

# Sotrovimab for treatment of COVID-19

## Is this you?

You are COVID-19 Positive

You have had symptoms for less than 5 days

You are immunocompromised (regardless of vaccination) **OR**

You have had one or no doses of a COVID-19 Vaccine **and** have one of the following:

- Diabetes
- Obesity
- Renal Disease
- Heart Disease
- COPD
- Asthma
- Over 55

If you answered yes to the above questions, you may be eligible for Sotrovimab.

## What is Sotrovimab?

- Sotrovimab is a medication that has been developed for the treatment of COVID-19
- If given in the first 5 days of COVID-19 infection, it may reduce the chances of needing to go to hospital or dying by up to 85%
- Not everyone is eligible for treatment. There are certain criteria you must meet.

## Where can I get more information?

If you think you, or someone close to you are eligible for sotrovimab and want more information, please get in touch as soon as possible. This treatment must be given within 5 days to be effective.
