

Acute Cardiovascular Emergencies

Course at a Glance

ACE is a one-day simulation course designed for medical and nursing staff who respond to acute cardiovascular emergencies. The course aims to improve knowledge and skills in assessing and managing patients with acute cardiac conditions. The course utilises a blended learning approach to maximise the opportunity for hands-on practice of clinical skills and to explore clinical decision making in immersive simulation scenarios.

Course Topics

Topics included in the course are:

- Vascular access and line insertion
- CPR, defibrillation and advanced cardiac life support
- External pacing

As well as the technical knowledge and skill required to manage complex cardiac events, ACE emphasises the importance of human factors skills; such as leadership, teamwork, and effective communication, which are known to contribute to improved patient safety.

Who can attend?

ACE is an interprofessional course, developed for:

- Medical staff during ED/ICU/anaesthetic rotations
- Medical registrars attending MET calls
- Registered nurses working in ED/ICU/anaesthetic areas
- Registered nurses working in cardiology

Course Dates 2023

Thursday 2nd March
Wednesday 12th April
Wednesday 19th July
Tuesday 19th September

Course Timings: 8.00 am to 4 pm. To allow the course to run on time, we request that you arrive 15 minutes prior to the course start time
