

Debrief Course

Course at a Glance

This two day introduction to simulation debriefing is a course designed to develop novice simulation educators and build their debriefing skills.

The programme is designed for interactive sessions and provide methods to enhance reflection, engagement and delivery of feedback in simulation debriefing.

We highly recommend you complete NHET-SIM core module 1 & 2 prior to this course.

Course Topics

- Core structures, tools and strategies for debriefing
- pre-brief strategies and setting the learner for optimal performance
- optimising psychological safety
- managing cognitive load
- working with co-facilitators
- enhancing observation and feedback skills
- tips and traps: handling the challenging debrief
- rapid cycle, pause and discuss and debriefing for in-situ simulation
