

Ward-based Acute Resuscitation Drills

Course at a Glance

For Monash Health Interns and ward-based Nurses.

An inter-professional one-day simulation course designed to facilitate interdisciplinary training. A valuable opportunity for nursing and medical staff to train together, reflecting the reality of teams working together. The course is aimed to equip participants with a structured approach to the assessment and management of deteriorating ward patient. Participants will have the opportunity to practice the technical and teamwork skills known to enhance patient safety.

Course topics:

- Use of a structured, team based approach to the assessment and management of the deteriorating patients.
- Latest evidence about clinical deterioration in ward-based areas, and the importance of early escalation of care. Effective communication strategies and behaviours that aid teamwork coordination and clinical decision making.

The course includes interactive lectures, team work and problem-solving activities, immersive simulation scenarios and facilitated discussions.

Who should attend?

Monash Health Interns and Graduate Nurses or Junior Ward-Based Nurses (1-2 years' experience)

Interns will be pre-allocated dates throughout 2023
