

Refer to **Monash Health Fertility** via the **Fertility e-Referral** form on HealthLink

Intended parent/s	Referral submitted for:
Heterosexual couple	The woman
Same sex male couple	The male whose sperm is intended to be used in the IVF journey (if not established, refer one of the two)
Same sex female couple	The female whose egg is intended to be used in the IVF journey (if not established, refer one of the two)
Singles	The respective male/female

STEP 1:

Referral Field	Select
Urgency	As clinically indicated
Referral Purpose	Requesting treatments or an investigation

STEP 2:

Referral Details to be completed as standard practice, with clinically relevant detail listed.

STEP 3:

Social History, Patient Services & Other Information.

List the **(i) full name (ii) DOB (iii) address (iv) phone no.** of all person/s (partner / gamete donor / surrogate) involved in the fertility journey

The screenshot shows the HealthLink interface for a Fertility referral. Key elements include:

- Requested Information:** A red box highlights the 'Requested Information' section, which contains a warning icon and the text 'Fertility'.
- Referral Details:** Fields for 'Referred to*' (Beverley Vollenhoven), 'Referral Date*' (26/10/2022), 'Referral Continuation*' (New), 'Referral Period*' (12 months), 'Interpreter Required*' (No), and 'Consider for Telehealth consultation' (No).
- Urgency:** A red box highlights the 'Urgency' field, which is set to 'Routine: Greater than 30 days'.
- Referral Purpose:** A red box highlights the 'Referral Purpose*' dropdown menu, which is set to 'Requesting treatments or an intervention'.
- Referral Guidelines:** A section with a red box containing text about referral criteria and a 'Patient Consent*' checkbox.
- Social History, Patient Services and Other Information:** A red box highlights the 'Social History, Patient Services and Other Information' section, which includes fields for 'Full Name:', 'DOB:', and 'Special Needs / Reasonable Adjustments for Disability*'.

Please ensure:

- (1) Referrals for **diagnostic tests** (as per referral guidelines) are provided to the patient.
- (2) Patients are reminded that **each fertility journey participant is to attend their GP to receive referral/s for diagnostic tests** (as per referral guidelines).
- (3) Patients/participants are advised **not** to book or undertake their diagnostic tests (pathology, imaging, andrology) until contacted by Monash Health Fertility who will assist with appointment coordination.
