A. BACKGROUND

1. The Community Advisory Committee (Committee) operates under the authority of the Monash Health Board of Directors.
2. It is a legislated¹ Committee established in 2004 in accordance with government policy aimed at improving consumer, carer and community participation in Victoria's public health services and is now a requirement of the Australian Safety and Quality in Health Services standards (2nd edition).
3. The Committee operates within the context of Australian and Victorian health legislation and Monash Health policies and frameworks.
4. The Committee upholds Monash Health values including principles of the Monash Health Sustainability Strategy.
5. The Terms of Reference are complemented by the Monash Health Community Advisory Committee Code of Conduct and the Monash Health Community Advisory Committee Community Member Position Description.

B. PURPOSE AND ROLE

6. The purpose of the Committee is to provide a voice for the community and consumers in strategic decision making at Monash Health.
7. The Committee is a strategic level committee, which is appointed in an advisory capacity to the public health service board as a legislated advisory committee of the Board. It has no executive authority.
8. The role of the Committee is to provide advice to the Board of Directors, from a community and consumer perspective, in relation to Monash Health's strategic priorities.
9. Its role is distinct from that of the Partnering with Consumers Committee, which is a management committee that ensures systems and processes are in place to ensure Monash Health delivers care consistent with the requirements of the National Safety and Quality in Health Service Standards Second Edition: Partnering with Consumers (Standard 2).
10. In fulfilling its purpose, the Committee will:
 - (a) advocate to the Monash Health Board of Directors on behalf of the community, consumers and carers; and
 - (b) provide advice on strategic matters relating to the whole of the health service, rather than just the consumer participation strategy and processes.

C. SPECIFIC RESPONSIBILITIES

11. The Committee's specific responsibilities are to:

¹ Health Services Act 1988 (Vic), Sections [65ZA](#) and [65ZB](#).

- (a) maintain strong community networks and engagement in order to reflect on and present community needs and perspectives;
- (b) advise and advocate from the community perspectives on strategic initiatives as requested by the Monash Health Board of Directors;
- (c) provide advice to Monash Health executive on the development of an effective consumer and community engagement strategy;
- (d) identify topics that require community engagement either through the Committee or other mechanisms;
- (e) participate in the Monash Health strategic planning process and provide input into strategic priorities;
- (f) monitor key Quality and Safety measurements and Patient Experience data, initiatives and outcomes; and

19. The Monash Health Community Advisory Committee Community Member Position Description sets out detailed selection criteria for community members.
20. Community members' contribution of specialist knowledge and expertise will advise Monash Health on consumer, carer and community perspectives. They are appointed as individuals, and not as representatives of any organisation, and will have the opportunity to reflect and present community issues. Community members reflect demographic diversity and have strong community networks so they can reflect on and present a breadth of community voices.

They are able to represent the Committee at meetings of the Monash Health Board of Directors and to act as advocates and sources of information for the Monash Health Board of Directors.
23. Board Members are members of the Committee. Their term corresponds to their term as members of the Monash Health Board of Directors, subject to change initiated by the Chair of the Monash Health Board of Directors. Board Members cease to be members of the Committee when they cease to be members of the Monash Health Board of Directors.
