

Stabilisation of the Unwell Patient

Course at a Glance

S.O.U.P is a one-day comprehensive clinical skills and simulation program designed to equip participants with a structured approach to assess and manage deteriorating patients on the ward.

Course topics

- Use of a structured approach to assess and manage unwell patients.
- Latest evidence about clinical deterioration in ward-based areas.
- Effective communication strategies and behaviours that aid teamwork coordination and clinical decision making.
- The course includes interactive lectures and video analysis, team work and problem-solving activities, practice of clinical skills during workshops, immersive simulation scenarios and facilitated discussions.

Who can attend

Ward based nurses. Please note this course is designed for non-critical care nurses

As places are limited and demand is high, please be mindful of late cancellations.

National Safety and Quality Health Service Standards, September 2012. Standard 8: Recognising and responding to deterioration in acute health care
